

BIOLOGY

NETSoins Biologie provides a connection between your facility and the medical laboratory, allowing you to transfer biology results directly to each resident's records.

FEATURES

A CONNECTION IS ESTABLISHED

directly between the **laboratory** and **NETSoins** using the HPrim protocol.

READINGS ARE DIRECTLY INTEGRATED

to **resident readings**, and serve to enrich various charts and graphs concerning them.

READINGS AUTOMATICALLY TRIGGER

predefined alerts when minimum or maximum values are **exceeded**.

RESULTS SHEETS RECEIVED

are **transferred** to the resident's medical records, in the form of an **attachment**.

AN ALERT MESSAGE

then displays on the **homepage**, and disappears as soon as the readings are **back to normal**.
